PROFILE

I'm Maria Khan, a passionate front-end developer with a strong foundation in web technologies.Currently I am enrolled in Governor House Initiative for Artificial Intelligence and Computing (GIAIC) and (PIAIC) where i am learning AI,Web3 and Metaverse Technologies.I specialize in crafting engaging and user-friendly interfaces using HTML, CSS, TypeScript, and Next.js. With a keen eye for design and a love for coding, I strive to create seamless digital experiences that resonate with users. I'm dedicated to continuously learning and growing in this ever-evolving field to deliver innovative solutions. Let's build something amazing together!

EXPERIENCE

2024 - PRESENT
PIAIC

TRAINEE CLOUD APPLIED GENERATIVE AI ENGINEER

As a dedicated student of PIAIC, I am actively pursuing knowledge in GenAI Application Development, Cloud Computing, and DevOps, equipping myself with a robust skill set tailored to meet the demands of modern technology. This comprehensive learning experience is enabling me to build practical expertise in TypeScript, Python, front-end development with Next.js, and cutting-edge GenAI-related technologies. Through this program, I am developing the ability to design, implement, and optimize intelligent and scalable solutions. This dedication inspires me to tackle every challenge with enthusiasm and a problem-solving mindset, ensuring that my work consistently delivers impactful and forward-thinking results.

2024 - PRESENT
GIAIC

JUNIOR FRONTEND DEVELOPER

As a passionate Junior Frontend Developer, I have actively immersed myself in the ever-evolving world of web development, where creativity meets functionality. My journey has been shaped by creating a variety of projects utilizing technologies such as HTML, CSS, TypeScript, and Next.js.
