PROJECTS

The Hans Apparel | E-Commerce Web Platform

- Built and deployed a responsive e-commerce web platform for a curated women's clothing business.
- Developed a responsive, product-focused interface using Next.js, TypeScript, and Tailwind CSS for presenting clothing products online.
- **Live Website:** <https://the-hans-apparel.vercel.app/>

Cloud-Native AI Todo Platform

- Transformed a Python Todo application into a full-stack, AI-powered cloud-native web system using spec-driven development.
- Built the Next.js frontend with JWT authentication for protected access.
- Integrated the frontend with a FastAPI and SQLAlchemy backend and Neon PostgreSQL for persistent Todo data.
- Dockerized the application and deployed it on Kubernetes with Helm.
- **Project Demo:** OneDrive
